

DEFENCE OPERATIONAL REPORT: PROJECT TRISHUL

DOCUMENT REFERENCE:	DOC-2026-001	DATE OF ISSUE:	24 SEP 2026 09:30 IST
SECURITY CLEARANCE:	LEVEL 5 (STRAT-OPS)	DISSEMINATION:	DIRECT AIR-GAPPED ONLY
PQC CRYPTOPROTOCOL:	ML-KEM-512 / ML-DSA-44	INTEGRITY STANDARD:	FIPS 203/204 TAMPER LEDGER

1.0 EXECUTIVE SUMMARY & STRATEGIC OVERVIEW

This classified document outlines operational deployment parameters for Project Trishul, incorporating quantum-resilient cryptographic infrastructure for tactical field relays. Access to this asset is strictly partitioned under zero-trust provenance protocols. Every decryption event is cryptographically linked to the recipient's post-quantum keypair and recorded in the immutable provenance ledger.

2.0 TACTICAL SPECIFICATIONS & ASSET COORDINATES

Asset Grid Matrix: Sector North-West (Grid Ref: 28°36'N, 77°12'E). Operational telemetry confirms ready readiness of interceptor batteries under autonomous air-defense command. High-frequency radar arrays are synchronized with lattice-based digital signatures to prevent spoofing or unauthorized interception across all field terminals.

[TELEMETRY NODE]	[STATUS]	[PQC CARRIER FREQ]	[AUTH INTEGRITY]
NODE-ALPHA-01	NOMINAL	8.421 GHz / ML-KEM	VERIFIED ✓
NODE-BRAVO-02	ACTIVE	9.114 GHz / ML-KEM	VERIFIED ✓
NODE-CHARLIE-03	STANDBY	8.995 GHz / ML-KEM	VERIFIED ✓

3.0 FORENSIC TRACEABILITY & COMPLIANCE WARNING

NOTICE: Unauthorized dissemination, duplication, screenshotting, or leakage of this asset constitutes an offense under the Official Secrets Act. A recipient-unique invisible forensic watermark and cryptographic token have been injected into this document instance. Any recovered unauthorized copy or excerpt can be forensically attributed to the exact originating recipient and session.
