Hash Chain Linkage	Prev: 3C34F4FDBA90C1B9...	SHA-256 Chaining Verified	VALID ✓

3. FORENSIC CONCLUSION & LEGAL ATTESTATION

The forensic examination of the recovered asset establishes beyond reasonable doubt that the leaked document was decrypted by recipient **Alice (R001)** during session **SES-3A186E** on 2026-09-24 12:07:43. The embedded cryptographic token [WM-409D9967BD] matches immutable ledger block #184. The digital signature generated with the recipient's post-quantum private key is valid, and the ledger chain remains tamper-free. Attribution is conclusive.
